## Tips:

- Enter the phone number exactly as you would dial it. If the speed dial number is a long distance number that requires dialing 1+ the area code, enter that. For example, if the speed dial number is 1 (406) 248-8900, enter 14062488900 in the “phone number” column.
- If the speed dial number is a toll free number, be sure to include the 1.
- The name field is limited to 11 characters maximum, including spaces.
