Connect Telephone & Computer Group Signs Reseller Agreement with Interactive Intelligence to Offer IP Business Communications Software

Interactive Intelligence Software To Help Connect Telephone & Computer GroupCustomers Increase Revenue Opportunities, Improve Operational Efficiencies, Reduce Costs, And Ensure Investment Protection

BILLINGS, MT — May 29, 2008 — Connect Telephone & Computer Group has signed an agreement allowing it to market, sell and support Interactive Intelligence IP business communications software.

"The Interactive Intelligence software's unique open, single-platform architecture will help our customers increase revenue opportunities, improve operational efficiencies, reduce costs, and ensure investment protection," said Mr. Matt Duray, president of Connect Telephone & Computer Group.

"Connect Telephone & Computer Group is a fantastic new asset to our 250-plus global channel network," said Interactive Intelligence vice president of worldwide sales, Gary Blough. Their expertise in VoIP is extremely impressive and they strive to exceed their customer expectations on a daily basis."

Interactive Intelligence first released its all-in-one IP communications software suite in 1997. The standards-based, single-platform architecture with built-in multi-channel processing was designed to eliminate the cost and complexity introduced by "multi-point" vendors.

The software suite includes applications for the contact center and enterprise, including SIP-based switching, automatic call distribution, interactive voice response, multimedia recording, blended dialing, Web self-service, knowledge management, unified messaging, conferencing, fax services, speech-enabled unified communications for mobile workers, and more.
